

DESIGN YOUR OWN WALL MURAL

NOTES FOR TEACHERS

- Allow students to use page 1 as a blank template to **design their own** masterpiece mural
- Discuss as a group why designing for a large wall might be **different to painting** something smaller, like a card
- Things to consider – what **equipment** you might use; what **colours** you would choose; what the surface **texture** (brick) might feel like; what it means that the final creation will be much **bigger** in real life
- Also encourage students to discuss what it means creating work for a '**public**' space – does your piece have a message; who sees it; does this matter?
- What is the **message** to their work and why?
- **Share** your final creations via email so we can share them and also enter our competition **hello@shoutoutforthearts.co.uk**
- One **winner** will be chosen to **win art vouchers!**
- This task sheet is part of **Shout Out for the Arts' Nuneaton Mural Project**, find out more at **shoutoutforthearts.co.uk**
